

# M-FAK Mini First Aid Kit

REV111517

## NAR's most compact, versatile Mini First Aid Kit

The M-FAK, North American Rescue's Mini First Aid Kit, was designed for delivering immediate critical care for penetrating, blast or other traumatic injuries. At half the size of our popular T.O.R.K. platform, the M-FAK is currently the smallest platform available in our product offering. Despite its reduced size, this kit comes fully loaded with the critical medical equipment most requested by First Responders operating in the line of duty. Treatment pack out is available in BLS (Basic Life Support), Basic with Combat Gauze LE, and ALS (Advanced Life Support).

The M-FAK's super compact, 500 Denier nylon bag opens from the side in a clam shell configuration utilizing (2) two main sleeves that open on both ends for easy access and features multiple elastic loops for secure gear organization. The bag's exterior includes a MOLLE backing for mounting in the standard vertical position as well as a 3 in. internal sleeve for accommodating horizontal attachment to your duty belt. The vertical mount can be set to open left-to-right or right-to-left based on shooter preference, while the horizontal mount on a belt allows opening directly to your C-A-T<sup>®</sup> tourniquet. Also included are a loop patch on front of the bag for custom user labeling and (3) three MOLLE strips to attach additional gear such as a TQ/Holder (sold separately) if needed.
