

NIO-Adult™

Quick, Safe, Easy Vascular Access

- Vascular access in under 10 seconds
- Most cost-effective IO solution
- Redundant safety features
- Semi-automatic device
- No exposed needle
- Single use device
- 5 year shelf life
- Self-contained

Vascular Access in a Flash

When you need immediate vascular access, you can be confident that the NIO-A™ is complete and ready to use. The NIO-A is the quickest, most reliable intraosseous device for gaining immediate vascular access in adult patients.

NIO-Adult™

Product Highlights

Semi-automatic, self-contained unit facilitates rapid vascular access in under 10 seconds.

Unexposed needle decreases the risk of accidental needle injury.

Redundant safety features prevent accidental activation of the device.

No need for additional accessories makes the NIO-A a cost-effective solution.

The NIO-A features an innovative stabilizer hub which serves three functions:

- **Needle stabilizer** assists in securing the needle to the limb
- **Mechanical stopper** limits needle depth, preventing over penetration
- **Base estabilizadora** ayuda a la remoción del catéter

Specifications

Dimensions	139 mm (5.47") L 64.5 mm (2.6") W 43.7 mm (1.72") H
Weight	94.5 g
Packaging	Packed individually in a peel back blister pack
Needle Gauge	15 G
Needle Effective Length	42 mm (1.65")
Needle Penetration Depth	25mm (.98")
Safety Mechanism	1. Rotating safety latch prevents accidental activation 2. Simultaneous pressing of device against the bone and pulling of trigger mechanism required to activate device
Shelf Life*	5 years

Specifications are subject to change without notice.
