

COLLAPSIBLE HANDLE LITTER TALON® II 90C

When the U.S. Army envisioned an improved litter, North American Rescue built it. Talon® II 90C, the most compact & versatile litter on the market, allows casualty transport in restricted compartments. By releasing the locking, ergonomically designed handles, the Talon® extends to become 90 inches long. Already the U.S. Marine Corps official battlefield litter, the Talon® 90C is today's ultimate TACEVAC solution.

- Most advanced, innovative combat evacuation system ever designed
- Developed to U.S. Army requirements
- Certified Safe-to-Fly U.S. Army Rotary Wing
- Retractable, ergonomic handles
- Automatic locking hinges
- Slip-resistant, chemical-resistant rip-stop fabric tested & approved by Federal & private labs using live warfare agents
- 6 IV-attachment points
- 2 patient-securing straps

Talon® II 90C Collapsible Handle Litter
Item# 60-0002 (Black) NSN# 6530-01-504-9051
SEL# 09ME-05-LITR
Dimensions: Folded w/handles collapsed - H 20.5 in. x W 8.5 in. x D 9.5 in. Open w/handles collapsed - L 78 in. x W 22.5 in. x D 6 in. Open w/handles extended - L 90 in. x W 22.5 in. x D 6 in.
Weight: 16 lb 6 oz
Payload: 1200 lb (544.3 kg)
Ground Clearance: 1.5 in.
Patents: U.S. Patents 6,842,923 & 5,598,592, Patent(s) Pending

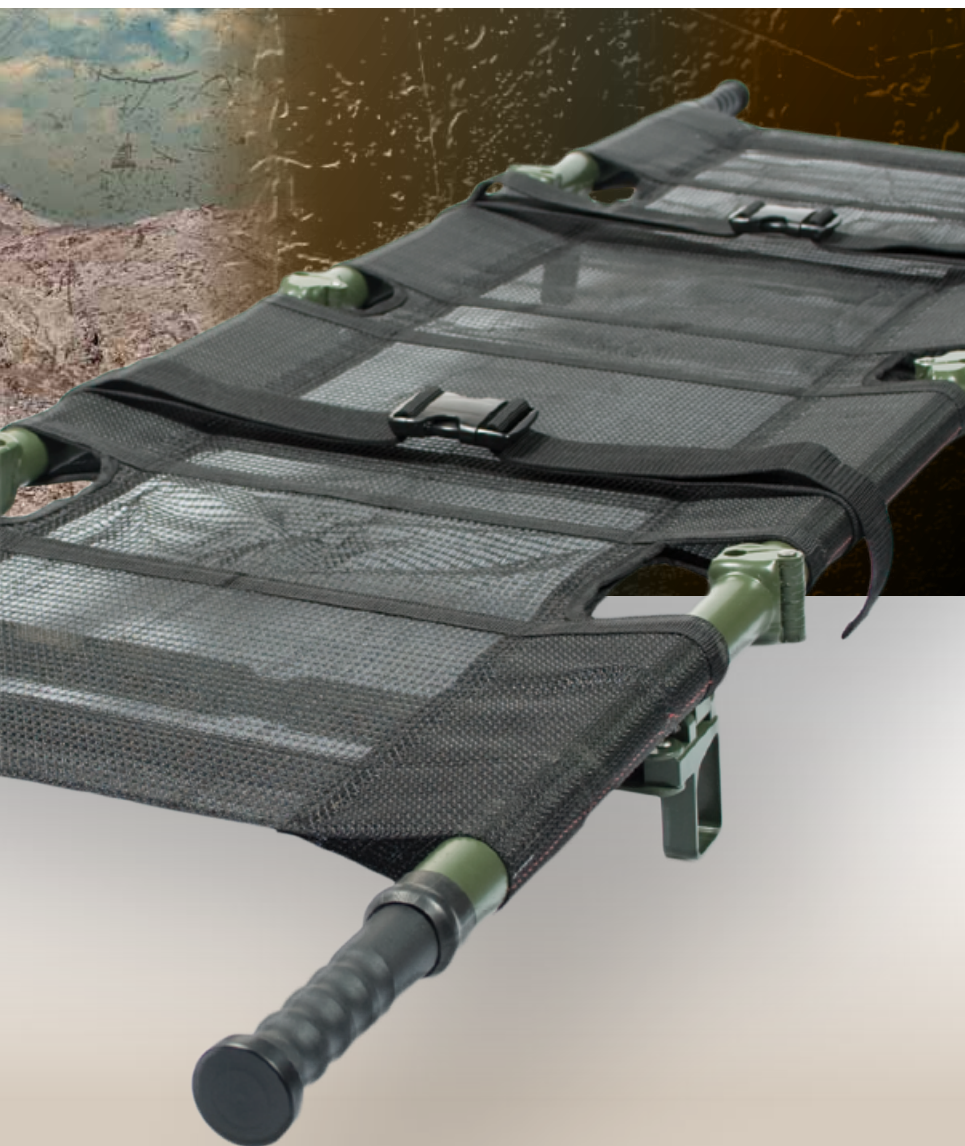

▲ Fully extended, the Talon® 90C becomes a standard 90 inch NATO-compatible evacuation platform

▲ Portable quad-fold design for easy transport and retractable handles allowing casualty transport even in the tightest spaces

◀ As another layer of protection against the austere environment, NAR woven litter beds are treated with mPale® antimicrobial with AEGIS™ Shield, an advanced technology developed by Dow Corning®, registered with the EPA and proven safe & effective since 1976. By forming a colorless, odorless, positively charged polymer chemically bonded to the treated surface, mPale® activates a powerful antimicrobial action that helps to control or eliminate objectionable odors, unsightly stains and product deterioration for the entire life of the product.

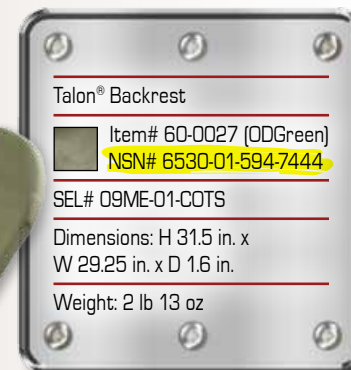

TALON® BACKREST (FOR TALON®/RAVEN® LITTERS)

- Allows patients to be placed at 90° or 45° angles
- Lightweight aluminum frame with Nomex/Kevlar-blend fabric covering
- Made to accommodate Talon® II 90C or Raven® Model 90C litters
- Firm, comfortable & secure

NOTE: Litters sold separately

33 INCH LITTER STANDS

- Lightweight, foldable stanchions for standard sized litters
- Provides a stable casualty platform for easier patient access
- Constructed of lightweight aluminum that conveniently folds flat for ease in transport & storage
- Quickly locks open to safely secure the litter in place
